Superb blues and transparent machinery make for an elegantly metaphoric Diaphane automatic. Moulded cobalt and Navy blue leathers with white stitching and a cobalt blue loop and aluminum buckle brace a mat transparent plastic case, unmarked aluminum bezel and an open, sunbrushed silver dial. Surrounding the open window into the works is a mirrored metal applique frame with extensions forming hours 6 and 12. Movement components in bare or painted metal, blue and white plastic are visible from front and back. Reflective metal hour and minute hands with white superlite highlights and a thin blue seconds hand mark the time.
