Dreamy Star

On a country road in the middle of the night, she looks up into the heavens. From the clear and sparkling night, stars begin to fall. The pendant, ring, earrings and bracelet evoke the magic of nights like this with sparkling white crystals, steel stars and delicate snowflakes set in a bed of white enamel in rectangular frames of polished steel. They are so close to earth, she reaches and she touches them. Cool and white and shining lights, falling softly into her hand as she dreams upon the stars.
