Glamstones

It's evening now, and time for an elegant appearance. Asymmetric rows of transparent white crystals set in polished steel discs are linked in flowing lines of fine steel chain. Like silk made into steel, the slender threads of this family lie close to your body, echoing its slow, sinuous curves and rolling hills, rising and falling with the gentle swell of the sea beneath the sparkling light of the stars. The light falls and scatters from the crystals and the polished surfaces, and the asymmetric balance of these alluring jewels catches the eye, subtle and glamorous at once. The family includes a necklace, bracelet, ring and earrings, available in silver or gold color.
