Lustro

Lustro is... a glint in the eye of fashion, an indestructible combination of materials joined to produce a finely finished look and feel. Dozens of polished steel links are placed vertically, one beside the other, each topped by black or purple crystals. Smooth to the touch, the links and crystals glitter, and the silver chain adds to the sense of luxury as it falls through your fingers when you fit the cufflinks or the pendant round your neck. Elegance transforms itself into a do-it-yourself fashion operation as you turn the matching pendant, cufflinks, ring and bracelet into sparkling signals to friends and people that you meet.
