Space Shape

Inspired by a dream and the call to adventure in a world that knows no boundaries, Space Shape's stylish pendant, ring and bracelet in matt stainless steel recall the streamlined surfaces of aeroplanes from more than sixty years ago. Their form and shape and smooth grey surface evoke gently curving sheets of steel bolted to a welded metal frame. The rivets in rows along the seams give him a sense that this machine beneath his touch is real. He loves the way they feel beneath his fingers—the pendant and the ring, the bracelet at his wrist: solid proof the dream is real.
