Feel sand between your toes, the breeze in your hair and the glorious sun on your skin. Inspired by the sun's golden rays, the watch design features a white dial with orange print framed by a matte orange plastic case. The silicone strap is divided between a matte light orange side at 12h and dark orange side at 6h. The light orange strap is accompanied by a light orange silicone loop with a sun and waves printed on it and a matte light orange plastic buckle.
