The curved screen of the digital watch Touch Camouflage, shows the quality that is behind the phrase Swiss-made, and the color LCD shows the Arabic numbers with a large typeface that is stylish and designed to fit perfectly to the shape of the wrist. Thanks to the seamless integration of the case and strap, which is fully ergonomic, it is a pleasure to wear the watch Touch Camouflage.

The largest numbers of the Touch Camouflage screen are the seconds: animated like the second hand of an analog watch, and are constantly changing, as if they were alive. This brings pace and momentum to life in the digital age. In fact they are the "heart" of the watch. The digital numbers of the Touch Camouflage are displayed on a background of opaque plastic and has a silicone strap of the same color in this case multicolor.
